Building Security - Awareness & Reporting of Suspicious Individuals Update

Here at QuadReal Property Group, we consider our tenant's safety a priority. Due to several factors in the downtown corridor, properties have seen a significant increase in "suspicious individuals" looking to gain unauthorized access. To help alleviate some of these issues, tenants are asked to heighten their security awareness, remain vigilant and be continuously aware of their surroundings.

When leaving your office space for the day or even momentarily, please ensure your personal spaces are securely locked when vacating the building. While it is tempting just to leave your office doors unlocked, so that you don't have to bother taking your keys/access cards with you and you can just walk right back inside when you return but in doing so opens the doors to crime, particularly to the people who sneak into the building, lurking about and checking for unlocked doors. Securing your offices or premises should always be a priority.

Whether you're at work, at home, or out-and-about, be alert to and report suspicious activity. Know your surroundings and who or what should or shouldn't be there. If you see something suspicious, report it immediately. Safety and security are everyone's responsibility!

Thank you for your continued assistance in keeping Commerce Place as safe as possible. If you have any questions or concerns, please contact our office and ask to speak to Merle Stymiest, Manager of Security & Life Safety at (780) 477-4400.

Thank you,

QuadReal Property Group
