Tenant Information Guide

Welcome To Commerce Place

Hello

Welcome to Commerce Place

Your safety, comfort, and convenience are top priorities for us daily. We're happy you're here.

As the property managers, we're committed to creating a sustainable environment that brings value to people both now, and for years to come. Our on-site staff offer a tangible presence, providing hands-on, in-person guidance to each and every one of our customers. It's this commitment to customer service that has made us leaders in the management of major commercial properties across Canada.

We've created the following guide to give you and your coworkers all you need to know as tenants. It contains information about the features, facilities, and safety protocols here – as well as the suite of tenant services we've designed with you and your business in mind. Please note this information is general in nature and may differ from your respective lease. In all cases, your lease takes precedence over this guide, which can be found at commerceplaceedm.com.

We are available for any questions or concerns you may have. Please call us at 1-877-977-2262 or email us anytime at service@quadrealconnect.com.

Thank you. We look forward to working with you here.

Communications

We believe a thriving community is one grounded in transparency. Throughout your time with us here, you'll see us use a number of communication channels to keep you informed about what's happening. These will include elevator screens, directories, and programming / event calendars.

We ask that each tenant please designate one employee to act as principal liaison between our office and yours. This contact person should be responsible for making all inquiries or service requests to our Management Office at 780-477-4400 or through QuadReal CONNECT.

Please inform us of your designated employee's name, along with their telephone number and email address. By restricting this responsibility to one principal liaison, it will allow us to provide better recording and assessment of problem areas and will also result in the delivery of more efficient and timely service for your needs.

QuadReal+ Tenant Portal

We've designed this app with your day-to-day tenant needs in mind. Download easily to your phone or desktop to get the latest up-to-date building information, exclusive tenant events and offers, and more. Download QuadReal+ at quadrealplus.com.

Tenant Bulletins

For those less tech-inclined, we also share regular communications about building & operational issues with appropriate tenant contacts. In turn, they're encouraged to share with their colleagues, so everyone is kept informed.

Stat Holidays

Property management team recognizes the following stat holidays:

New Year's Day
Canada Day
Remembrance Day

Family Day

Please give us 24 hours' notice for any special HVAC or security requirements for any staff you have working on holidays or weekends.

Central Operations

|-----------------------|----------------|--------------|
| Operations Manager | Paul Soholt | 780-220-4885 |
| Operations Supervisor | Bayardo Jordan | 780-699-0498 |

Electrical / Mechanical Services

In charge of heating, cooling & ventilation, our Operations team helps ensure the year-round comfort of your office space and your colleagues. Please let us know if your environment is making your team uncomfortable in any way.

Emergency Power

In the event of a power failure, the property is equipped with emergency power diesel generators, programmed to come on within 10 seconds of losing power. Sufficient lighting is provided on emergency power to allow you and your coworkers enough visibility to evacuate using the stairwells if necessary.

Emergency generators are fully tested every month. When this happens, power to all emergency circuits is affected.

Heating & Cooling

Your comfort is important to us at all times. We recommend the following steps to help maintain a more comfortable office temperature for as many of your coworkers as possible.

- If possible, keep furniture 12 inches from floor-mounted radiating units around the perimeter of your space. Obstructing these grills interferes with proper temperature control.
- Keep papers and other items off exposed radiation grills.
- Don't obstruct thermostats with furniture or cabinets.
- When you take occupancy, airflow to your floor should be balanced by an air balancing technician in accordance with your Leasehold Improvement Manual. We recommend further rebalancing when: internal walls are added / relocated or your occupancy levels increase substantially.

Energy Management Advice

You always have control over the energy used in your office space, but we do offer advice on ways to manage energy consumption and reduce costs. Please call Property Management at 780-477-4400 anytime to learn more.

Lighting Control

Office lighting here is controlled by a building automation system. The system ensures lights are on during regular business hours. Emergency lighting cannot be turned off for any reason. If you feel your lights aren't performing or require scheduling changes, please let us know by contacting QuadReal CONNECT at 1-877-977-2262 or service@quadrealconnect.com.

Indoor Air Quality Testing

We contract third-party environmental consultants regularly test the air quality here to ensure we're meeting standards established by ASHRAE, LEED, Fitwel, and Health Canada.

Chemical Handling / Storage

All chemical products are carefully managed in accordance with the QuadReal Standard Operating Procedure.

Retail Maintenance & Operating Systems

Fan Coil Units

Dependent on lease, fan coil units located in Commerce Place are maintained regularly by a third-party contractor. Routine maintenance costs include filter changes and belt replacements but exclude breakdown repairs which could be an additional charge to tenant.

Retail Kitchen Hoods

Inspections & Cleaning

All kitchen exhaust hoods installed are subject to quarterly cleaning. This frequency ensures systems are kept clean and safe, while complying with the Alberta Fire Code.

Construction Services

We know that over time, your requirements for your office may evolve. So, we've established a full suite of construction services to help ensure your space is designed and laid out the right way for how you and your staff work best.

We can coordinate all leasehold improvements and changes involving base building construction and systems. This involves the review of all design drawings by the appropriate disciplines to ensure your office space is in compliance with landlord requirements.

Any changes must be approved in advance by the landlord.

All contractors requiring access must complete a Request for Work Permit a minimum of 5 days prior to when they need access. Please call our Property Management Office at 780-477-4400 to secure that permit. Only contractors approved by the landlord may be employed to complete base building work in the complex. We don't permit x-raying, core drilling or work that disrupts other tenants during normal business hours.

- Note when the call started and ended.
- Once ended, call 911 immediately. Then call Commerce Place emergency at 780-944-0903.

Fire Detection & Suppression Systems

We have an interconnected life safety system at Commerce Place, designed to detect and contain fires. Monitored 24 hours a day, it's equipped with a state-of-the-art Simplex fire alarm system. The building is fully sprinklered and is equipped with several smoke exhaust and pressurization fan systems to contain any fire to a small area and protect lives. Two diesel powered generators provide emergency power to all life safety and critical mechanical equipment.

Fire Alarm Tones

The fire alarm system broadcasts two separate tones.

The evacuation tone is broadcast to the floor where the alarm device has been activated – as well as to the floors above and below. When you hear the evacuation alarm, please leave immediately.

The alert tone is broadcast to the remaining floors in the building to indicate that a fire alarm has been activated but the floor you are on is not affected. It's not necessary to leave your floor when you hear the alert tone, although you should be prepared to evacuate if the situation changes.

Floor Warden Team

Commerce Place Property Management provides training and information on emergency procedures. As a tenant, it is your responsibility to ensure there is a floor warden team for each floor your company occupies – and that staff have access to information about emergency procedures.

The floor warden team assists occupants during an evacuation and helps to educate their coworkers about emergency procedures.

When the alert tone sounds, the floor warden team should wait in the lobby until the all-clear message comes on.

If the evacuation tone is sounding, the floor warden team should immediately begin evacuating occupants from your floor.

Floor Warden

The floor warden is the leader of the team in charge of directing team members during an emergency.

They also ensure the team is trained and that any vacancies are filled immediately.

During an evacuation, the floor warden must search their assigned area, advise occupants of the emergency and direct them to the nearest exit and muster point. When they complete their search, they can return to the lobby to meet the other team members and leave the floor themselves.

Assistant Floor Warden

The assistant floor warden must take over if the floor warden is absent or unavailable. This person conducts a search of their assigned area, advises occupants of the emergency and directs them to the nearest exit.

Assistance Monitors

Assistance Monitors are responsible for assisting persons requiring assistance to ensure they get to a safe place which is beside or within the stairwell. They are to remain with the person requiring assistance until the building response team or emergency services arrive to assist.

Training

The floor warden manual will be provided to you and will assist to communicate and orientate all employees to the emergency procedures and life safety systems on the floor they occupy. In addition to the manual provided, floor wardens will be asked to attend mandatory annual emergency response training seminars provided by WPS Emergency Planning.

EVAC MOBILE APP

A Mobile app is also available to all our registered Tenant Floor Wardens. Should you be interested in more information, please contact our Manager, Security & Life Safety.

Earthquakes & Tornadoes

If an earthquake or tornado is impacting Commerce Place, please remain calm.

- Take cover under a desk, table, or the nearest interior doorway. Hold onto whatever you're under.
- Keep away from windows and glass doorways.
- Don't use elevators. You could become trapped if the power goes out.
- Don't leave cover until it's safe to do so. Follow the directions of building staff.
- If someone is injured, call 911 and then call Commerce Place emergency at 780-944-0903.

Power Outage

In the event of a power outage, Commerce Place is equipped with emergency generators. They're designed to power life safety systems and provide limited lighting and elevator service throughout the complex.

In such a case, there will be a glow-in-the-dark path marking materials and signage within all the stairwells in order to assist with safe egress in the event an evacuation is required.

Please follow the instructions of building personnel during a power outage.

In Case of Fire

- Leave the affected area immediately, closing all doors behind you.
- Activate the nearest fire alarm and evacuate via the nearest stairwell.
- While exiting the floor, advise anyone you see to evacuate.
- From a safe location, call 911. Then call Commerce Place emergency at 780-944-0903.

Do not dismiss the potential of a small fire; it can quickly escalate.

Evacuation

- As people evacuate their floor, they should keep to the right of the stairs to allow building personnel and firefighters to pass on the left-hand side.
- Walk at a normal pace and hold onto the handrail as you proceed down the stairs. Remain focused, do not bring any beverages, or use your mobile device unless it's an emergency. Leave heavy and bulky items behind. If you're wearing high-heeled shoes, remove them.

- Occupants from other floors will be entering the stairwells. Allow them to merge into the flow but do not stop as this will delay the occupant's evacuation from the floors above.
- Occupants should proceed down the stairs and gather at their company's designated assembly area.
- All stairwells include crossover floors. These floors, which are positioned at every 5 floors or less, allow for evacuating occupants to cross over to an alternate stairwell should the stairwells become too congested or unsafe to use.

Public Area Fire Alarms

If you're in a public area, such as the concourse, a restaurant, or the parking garage, remain where you are and listen to the instructions of the building personnel. If it becomes necessary to evacuate, follow the signs to the nearest exit.

Persons Requiring Assistance

We have procedures in place to assist anyone unable to evacuate due to a health condition. When the evacuation tone sounds, any person requiring assistance (PRA) should go to the nearest stairwell and wait on the landing.

Medical Emergency

If there is a medical emergency, remain with that person and try to make them feel comfortable. Have someone call 911 as well as Commerce Place emergency at 780-944-0903. Indicate your location and if possible, have someone available to meet with the security officer who is dispatched.

Commerce Place Security Officers are trained and equipped to administer first aid. They will also ensure Emergency Medical Services arrive at patient's location as quickly as possible.
