## Electric Vehicle Charging Stations

We are pleased to announce that the new EV Charging Stations at Jamieson Place have been commissioned. The new EV Charging Stations are located on parkade level P1, by the Eco-Friendly parking stalls.

All parkers, either monthly or transient, are welcome to use the chargers free of charge.

The procedures to use the chargers are listed below:

- A maximum of four (4) hours charging will be free of charge, provided that the vehicle charging in the stall paid for their parking fee.
- A vehicle charging in the parking stall for more than 4 hours will be charged \$5.00 for every hour that the vehicle remains plugged-in and parked in the parking stall, with a maximum overstay fee of \$50.00.
- Once a vehicle is fully charged, drivers have 30 minutes to relocate it.
- In the event that all charging stations are occupied, a waitlist option is available via the Chargepoint app. Once a charging station becomes available, a notification will be sent via the app to the users who will then have 20 minutes to plug in.

Please download the Chargepoint app to use the Charging Station and to find out more information:
