Tenant Information Guide

HELLO

Welcome to Livingston Place

Your safety, comfort, and convenience are top priorities for us daily. We're happy you're here.

As the property managers here, we're committed to creating a sustainable environment that brings value to people both now, and for years to come. Our on-site staff offer a tangible presence, providing hands-on, in-person guidance to each and every one of our customers. It's this commitment to customer service that has made us leaders in the management of major commercial properties across Canada.

We've created the following guide to give you and your coworkers all you need to know as tenants. It contains information about the features, facilities, and safety protocols here – as well as the suite of tenant services we've designed with you and your business in mind. Please note this information is general in nature and may differ from your respective lease. In all cases, your lease takes precedence over this guide, which can be found at livingstonplace.com.

We are available for any questions or concerns you may have. Please call QuadReal CONNECT anytime at 1-877-977-2262 or email us at service@quadrealconnect.com.

Thank you. We look forward to working with you here.

About Your Building

The Site

Situated in the heart of Calgary, Alberta's Financial Core, Livingston Place is premier Class "AAA" office complex. Located at the northeast corner of 3rd Avenue and 2nd Street Southwest, Livingston Place overlooks the Eau Claire district and the Bow River Valley. Comprised of two twin towers, the property provides a combined total of 909,514 square feet (ft²) of prime office space to 31 longstanding commercial and retail tenancies.

Constructed in 2007, Livingston Place was named after "Calgary's First Citizen" Sam Livingston, who helped to define our great city.

Centrally located in the second most pedestrian-friendly neighbourhood in Calgary, Livingston Place boasts a Walk Score® of 97, establishing the complex as a "Walker's Paradise." With a central positioning among a diverse array of local cultural, entertainment, and outdoor amenities, the complex is less than a kilometer away from The CORE Shopping Centre and Stephen Avenue Mall; local parks including Sien Lok Park, Eau Claire Park, and Prince's Islands Park; the Bow River; as well as a wealth of shops, restaurants, theatres, and hotels.

Despite its urban setting, Livingston Place strives to incorporate elements of the natural environment, featuring the largest green space in Calgary's commercial office centre, and incorporating unique postmodernist architecture inspired by the Bow River. High performance glass and Canadian granite are detailed in interlocking forms to emphasize a vertical expression for the towers.

Our abundance of building amenities and unique features offer best-in-class services to our tenants and surrounding community and include a private onsite lounge and fully equipped multi-media conference centre, a

Tenant Signage

On single Tenant floors the Tenant shall be entitled to install signage in the elevator lobby provided that the size, design, and location of such sign is approved by the Landlord. Pest Control

QuadReal deploys an Integrated Pest Management system (IPM) defined as an environmentally sound, cost effective and sustainable process of preventing and suppressing insect, plant, and animal pests – both indoors and outdoors.

Standard parts of the QuadReal IPM Program may involve but not limited to the following steps:

- Routine inspections, monitoring and specific targeting of pests commonly known to the region.
- Structural and procedural modifications to reduce food, water, harborage, and access points used by pests.
- Use of non-pesticide alternative technologies, e.g. trapping and monitoring devices.
- Judicious use of least-toxic pesticide formulations and application methods.

Tenant Information Guide

November 2024

- If pest activity is observed and non-pesticide forms of prevention have been exhausted, the building pest control vendor may use pesticides: If a pesticide application must be applied, occupants are to receive notification through signage at the application site at least 24 hours in advance of any application or within 24 hours in the case of emergency situations.
- QuadReal's Pest Control Vendor must keep records of all products used on site, copies are available for review, please contact at QuadReal Connect at service@quadrealconnect.com or 1.887.977.2262

As the building owners and managers, we invest time and resources to ensure pest free environment within the office tower areas under our control, we rely on a partnership with our tenants to do their due diligence remediating or mitigating pest within their office areas.

Below are some preventative measurements that could be helpful within your space to reduce pests:

- Regular inspections and monitoring for the presence of pests.
- Having a professional plant care person review all plants in the office space and removal of landscape features that may harbor pests.
- Use of appropriate biological controls when needed.
- Ensuring food-service areas / break rooms are kept clean and waste kept in airtight containers.
- Rinsing or isolating empty beverage containers to deter sugar-loving pests.
- Cleaning all spills promptly, eliminating clutter to simplify cleaning, and minimizing hiding places for pests.
- Educating occupants to clean recycled containers before putting them into proper recycling receptacles.

Tenant should understand that while the Landlord has the responsibility to control pests associated with the common areas the onus is on the Tenant to keep their Premises pest-free. Should the Tenant need assistance with setting up their own Pest Management System they can reach out QuadReal Connect @ service@quadrealconnect.com or 1.887.977.2262, and a QuadReal representative would be happy to assist.

Central Operations

Electrical / Mechanical Services

In charge of heating, cooling & ventilation, our Operations team helps ensure the year-round comfort of your office space and your colleagues. Please let us know if your environment is making your team uncomfortable in any way.

Emergency Power

In the event of a power failure, Livingston Place is equipped with emergency power generators, programmed to come on within 10 seconds of losing power. Sufficient lighting is provided on emergency power to allow you and your coworkers enough visibility to evacuate using the stairwells if necessary.

Emergency generators are tested in accordance with CSA Standards.

Heating & Cooling

Your comfort is important to us at all times. We recommend the following steps to help maintain a more comfortable office temperature for as many of your coworkers as possible.

- Don't obstruct thermostats with furniture or cabinets. Have an understanding of how the thermostats work and the associated zones. Should you have any questions, please contact QuadReal CONNECT and a team member can assist.
- Following tenant premises construction, airflow to your floor should be balanced by an air balancing technician in accordance with the building's Construction Rules and Regulations manual.

Energy Management Advice

You always have control over the energy used in your office space, but we do offer advice on ways to manage energy consumption and reduce costs. Please call QuadReal CONNECT to learn more.

Lighting Control

Office lighting is controlled by motion sensors on each floor. The system ensures lights are on while movement is detected and turns it off when the floor is no longer occupied. Emergency lighting cannot be turned off for any reason. If you feel your lights aren't performing, please let us know by contacting QuadReal CONNECT at 1-877-977-2262 or service@quadrealconnect.com.

Tenant Metering

Each tenant space is individually metered to gauge electrical consumption. This means you only pay for your usage. All utility charges are already included in your rent. Then at year-end, a rebate or an additional charge is levied to ensure you're only paying for your actual consumption we've recorded.

If you want a more detailed breakdown of your monthly consumption, please call Property Management at QuadReal CONNECT at 1-877-977-2262 or at service@quadrealconnect.com.

Indoor Air Quality Testing

We contract third-party environmental consultants regularly test the air quality at Intact Place to ensure we're meeting standards established by ASHRAE, LEED, Fitwel, and Health Canada.

Chemical Handling / Storage

All chemical products are carefully managed in accordance with the QuadReal Standard Operating Procedure.

Floor Warden Training

Floor Wardens (volunteers provided by Tenants) provide assistance should an emergency arise. The wardens are also responsible for assisting incapacitated people and searching the floor to ensure that everyone is out. Should an emergency arise, instructions from the Fire Wardens are to be carried out by all Tenants.

Floor Wardens receive annual training and routine building evacuation drills are conducted periodically to familiarize Tenants with emergency procedures.

In Case of Fire

- Leave the affected area immediately, closing all doors behind you.
- Activate the nearest fire alarm and evacuate via the nearest stairwell.
- While exiting the floor, advise anyone you see to evacuate.
- From a safe location, call 911. Then call Livingston Place emergency at 403-716-2000.

Do not dismiss the potential of a small fire; it can quickly escalate.

Evacuation

- As people evacuate their floor, they should keep to the left of the stairs to allow building personnel and firefighters to pass on the right-hand side.
- Walk at a normal pace and hold onto the handrail as you proceed down the stairs. Remain focused, do not bring any beverages, or use your mobile device unless it's an emergency. Leave heavy and bulky items behind. If you're wearing high-heeled shoes, remove them.
- Occupants from other floors will be entering the stairwells. Allow them to merge into the flow but do not stop as this will delay the occupant's evacuation from the floors above.
- Occupants should proceed down the stairs and gather at the building muster points or their company's designated assembly area.
- All stairwells include crossover floors. These floors, which are positioned at every 5 floors or less, allow for evacuating occupants to cross over to an alternate stairwell should the stairwells become too congested or unsafe to use.
- It can be strenuous to walk down the stairs, so remember to pace yourself. If you feel tired or ill, don't be afraid to stop on a landing for a few minutes. If you see someone fall or take ill during an evacuation, call Livingston Place emergency at 403-716-2000.
- Crossover Floors: 03, 08, 14, 19, 22
- North Muster Point: Chinese Cultural Centre Front Plaza
- South Muster Point: 240FOURTH Front Plaza

Public Area Fire Alarms

If you're in a public area, such as the Plus 15, a restaurant, or the parking garage, remain where you are and listen to the instructions of the building personnel. If it becomes necessary to evacuate, follow the signs to the nearest exit.

Persons Requiring Assistance

We have procedures in place to assist anyone unable to evacuate due to a health condition. When the evacuation tone sounds, any person requiring assistance (PRA) should go to the elevator lobby and use the fire phone to report their location.

Floor warden team members should report the location of any PRA by using the fire phone and by visiting the Security Desk located in the Livingston Place South Tower lobby.

Calgary Fire Department will assess the situation and determine if any PRA needs to be evacuated from their floor.

Medical Emergency

If there is a medical emergency, remain with that person and try to make them feel comfortable. Have someone call 911 as well as Livingston Place emergency at 403-716-2000. Indicate your location and if possible, have someone available to meet with the security officer who is dispatched.
