The Holidays, Done Sustainably

The holidays can be an overload of great food, family gatherings (virtually, this year) and... trash. Canadians throw out more than **540,000 tonnes** of wrapping paper and gift bags each year! If you choose to gift wrap this year, prioritize recyclable alternatives like craft paper, or pages from magazines. Better yet, seek out reusable alternatives!

Advertising Kindness

British company John Lewis & Partners has helped kick start the holiday season with Give A Little Love advert. The feel-good video creatively uses different forms of art, such as Claymation and illustrated animation to deliver a message of kindness to one another. Tissues please! [WATCH THE VIDEO](#)
