PAR-Q & YOU**

Regular physical activity is fun and healthy, and people are becoming active every day. Being more active is very safe for most people. The PAR-Q, a standard self-screening tool, will tell you if you should check with your doctor before you start a new exercise program. As well, if you are over 69 years of age and you are not used to being very active, check with your doctor.

Common sense is your best guide when you answer these questions. Please read the questions carefully and answer each one honestly; check YES or NO.

YES	NO	
<input type="checkbox"/>	<input type="checkbox"/>	1. Has your doctor ever said that you have a heart condition <u>and</u> that you should only do physical activity recommended by him/her?
<input type="checkbox"/>	<input type="checkbox"/>	2. Do you feel pain in your chest when you do physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	3. In the <u>past month</u> , have you had chest pain when you were <u>not</u> doing physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	4. Do you lose your balance because of dizziness or do you ever lose consciousness?
<input type="checkbox"/>	<input type="checkbox"/>	5. Do you have a bone or joint problem that could be made worse by a <u>change</u> in physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	6. Is your doctor currently prescribing drugs (for example, water pills) for a blood pressure or heart condition?
<input type="checkbox"/>	<input type="checkbox"/>	7. Do you know of any other reason why you should not do physical activity?

If you answered YES to one or more of the questions:

Please pick up a "Medical Release Form" from the /SFC Fitness Club. Your doctor needs to approve any activity you plan to undertake. i.e. fitness assessment or personalized program

If you answered NO to all questions:

If you have answered NO honestly to all PAR-Q questions, you can be reasonably sure that you can start being more physically active beginning with a health assessment.

Delay becoming more active:

- If you are not feeling well because of a temporary illness such as a cold or a fever, wait until you feel better.
- If you are or may be pregnant – pick up a PARmed-X for Pregnancy form from the /SFC Fitness Club Consultant to be completed by you and your doctor

Please note: If your health changes so that you then answer YES to any of the above questions, please inform the /SFC Fitness Club Consultant. They will then determine whether or not you should change your physical activity plan.

I have read, understood and completed this questionnaire. Any questions I had were answered to my full satisfaction.
